ONVIA SmartCam HD

Pan & Tilt Day/Night Network Camera

Pet Monitor
It's so easy to monitor furry friends remotely from mobile and be sure they're fine. Smartcams are in your pocket. Pet owners, meet your best friend!

Mobile Surveillance
Being away is not a trouble in the 21st century. Use your mobile and Smartcams to monitor things remotely, whenever and wherever you are.

Front Door Camera View
Know who's standing at your front door - without even reaching for it. Monitor the doorsteps from smartphone, get motion detection alerts, record video.

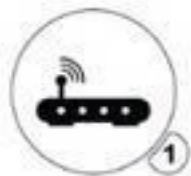

Baby Monitor
No more worries about your baby when you are away. Just use your Android or iPhone to monitor your children at any time. Be sure they're fine.

ONVIA SmartCam HD

Pan & Tilt Day/Night Network Camera

Easy Installation

1. Connect IP Camera to your switch or wireless router and attached the power adaptor.

2. Download the Onvia Cloud Viewer app and install. Register your personal account.

3. Scan the QR code to add IP Camera. Now the live video is right on the screen.

Micro SD
Have the option of saving footage directly to your IP camera, supports up to 32GB.

PTZ
Remotely pan and tilt live video and keep an eye on a larger area.

Night Vision
View up to 26 feet in complete darkness with LED.

Two Way Talk
Talk and listen to pet and people via built-in mic and speaker.
