LABEL IT

Perfect for creating labels for around the office

Many design options from your PC or mobile devices

PC and Mac

Free Brother P-touch Editor design software gives you powerful editing tools to create the ideal label for your workplace.

- Available as a free download from Brother support
- Variety of barcode protocols available for barcode creation
- Include images such as a photo or a company logo
- Hundreds of built-in clipart, symbols and frames to choose from
- Link to text contained in an Excel or .csv file to easily print multiple labels with variable information.

Free Brother Labelling Apps

iPrint&Label

Brother™ iPrint&Label is a free app for printing labels from your compatible Apple or Android device to a compatible Brother device using your wireless network. Convenient and easy to use, the app will automatically search for supported Brother devices on your wireless network.

P-touch Design&Print

P-touch Design&Print is a free app that enables you to design and print labels from your smartphone or tablet to the Brother P-touch PT-P300BT and the PT-P710W label printers using Bluetooth wireless technology.

Limitless power

Inside the P-touch PT-P710BT is a small yet powerful Lithium Ion battery that recharges while connected to your computer. Or plug into any standard USB mains power adapter to recharge on-the-go.
