

Arctic Titan 2

Wide Format Laminator

The GBC Arctic Titan 2 is an excellent roll laminator design for cold lamination using pressure-sensitive films and foam boards. Versatile and easy to use, the manual hand crank GBC Arctic Titan 2 laminates and mounts prints up to 1570 mm wide and 25 mm thick. Features enhanced automatic peeling and winding of the release film liner. Dual operating control allows user to choose between photoswitch button and foot pedal operation.

Features & Benefits

- Max laminating width: 1570 mm
- Max laminating thickness: 25 mm
- Max speed: 5 m/min
- 1 Rewind + 2 Unwinds
- Adjustable speed for operator comfort
- Photoelectric switch and foot pedal operation

Technical Specifications

Lamination type (Heat / Cold)	Cold only	Roller lifting system	Hand crank
Laminating width	1570 mm	Shafts (Rewind / Unwind)	1 rewind + 2 unwinds
Laminating speed	0-5 m/min	Operation control	Foot pedal / photoswitch button
Roller diameter	120 mm	Films types	PET PSA, PSA Mounting
Roller width	1640 mm	Dimension (mm) W x D x H	1920 x 576 x 1320
Max. roller nip gap	25 mm (Thickness)	Weight (kg)	220
