

Perfect the Cloud Solutions

TIMETEC QF PLUS

Wireless QR Code & Facial Recognition Terminal

TimeTec QF Plus is another great addition to enhance TimeTec cloud solutions. It is an Android terminal preloaded with the mobile QF Master App, which performs face recognition or QR code verification. When the QF Plus is paired with the TimeTec BLE-2 or BLE-5 controller via Bluetooth communication, it becomes a new breed of cloud access control system.

QR Code Verification
Support machine-readable image as credential

Face Recognition
Latest visible light facial recognition technology

Large Capacity
Store up to 10,000 face templates and 1 million transaction logs

Pairs with BLE-2/5
Perfectly paired with TimeTec Bluetooth Low Energy (BLE) Technology controller

Anti Passback
Prevent users to second enter the same security controlled area

WiFi or 4G
WiFi or 4G wireless connectable, clean installation and no wiring required

Elegance Design
A sophisticated, compact and slim model devised to fit dimensions of door frame installation

TimeTec Cloud
Seamless integration with multiple TimeTec cloud solutions

Desktop/Wall-Mount
Come with a standard desktop stand and a wall mounting back plate
