

NIGEN

N-10

Product Description

N-10 is a terminal specified for access control. With a robust and elegant PVC case design, it is ideal for areas where only simple access control is required without management software. The device also built in a proximity card reader (EM).

Specifications

Capacity

Fingerprint Capacity 500
Log Capacity 100,000

Hardware

Sensor Optical Sensor
Relay Contact Door Lock, Bell, Exit Button
Proximity ID Card

Fingerprint Algorithm

Verification <1 second
FRR <=0.01%
FAR <=0.0001%

Communication

Comm. Port Thumb Drive

Environment

Oper. Temp 0° - 45° C
Oper. Humidity 20% - 80%

Dimensions

170 x 65 x 50mm

Power

DC 12V 3A
