*Enter the desired amount.*

2  
*Simply place the checks at the lined position.*

3  
*Press the print key (P).*

### Battery-powered EC-310C electronic check writer

- More than 100 checks can be printed with full 10 digits by its built-in rechargeable battery in any place of no power source and during main power failure.
- Available for both "on the line" and "battery" operation.
- The buzzer starts to sound for recharging battery when the battery capacity is nearly drained after continuous battery operation.  
(At least 24-hours charge is necessary for 100 checks.)
