

## NEW KON PN-11E

- **Easy to operate**  
By pushing the start button you can punch 2-hole in 30mm thickness (approx. 300 sheets, 64g/m<sup>2</sup> PPC paper) of paper at one time
- **Safety System**  
Model PN-11E does not operate before you fully put the protection cover down. Once the protection cover is down, it shut up your finger and hand. It's very safety.
- **Paper Chip box**  
The paper chip box is located the front of the machine. And you can see the paper chips fill the box
