

FELLOWES® Voyager A3

100% Jam Free Laminator

High Performance Large Office Laminator For Heavy Use

- Unique heated belt-driven technology for ultimate jam-proof laminating
- The only laminator that allows instant changes between different pouches without heat-up or cool-down time
- AutoLam pouch detection and speed adjustment automatically sets the optimum speed/heat combination
- CleanMe auto-glue sensor alerts the user to clean the laminator belt if glue or dirt has built up
- Accepts all pouch types up to 250 microns
- 2 year full warranty

Unique features

SPECIFICATIONS

Item Number	Model Name	Laminating mechanism	Entry width	Heat up time	Temp adjustment	Speed	Max micron
5704201	Voyager A3	Belt drive	330mm	4mins	AUTO	90cm/min	250micron

Fellowes

FELLOWES® Voyager A3

Unique Features

Automatic pouch detection and speed adjustment ensures best laminating results

Unique heated belt driven technology for ultimate jam free laminating

Reduces the surface temperature of the laminator by up to 50%

Allows user to open up the laminator to clean and maintain the rollers for consistent quality results

Laminator switches to standby or mode off during periods of inactivity to reduce energy consumption

HOW THE AUTOLAM SYSTEM WORKS:

- 1 The laminator measures the combined thickness of paper and pouch via infrared sensors
- 2 The laminators temperature is fixed at the heat level required for all pouches up to 250 micron
- 3 The optimum speed level is set according to the combined thickness of paper and pouch ensuring the correct speed and heat combinations for the best lamination results
- 4 The only laminator that allows instant changes between different pouches without heat-up or cool-down time - ideal for multiple users
